Something to say thank you...

Please accept this bottle of Champagne together with this special edition Spirit of Discovery book so you may toast our Northern Nights voyage and read about our beautiful ship with our compliments and our warmest appreciation.
We cannot thank you enough, working together, we have minimised the winter virus entering the ship and when it has been brought on, minimised the infection spreading any further.
We appreciate your understanding and support in respect of the measures taken on board that could have been considered an inconvenience including the removal of the library books and not holding cocktail parties.

We hope you find the Champagne and the book suitably appropriate gifts.

Cheers and Thank You!
